

EXETER EXCERPTS

C.P.S. # 117

October 27, 1944

IF AT FIRST YOU DON'T SUCCEED.... Countless attempts have been made the past few weeks to get the news sheet "off the presses" and into circulation, but always some technical difficulty has ruined each and every attempt. New materials have been purchased and are now in use and here's hoping that this edition will be a success, technically at least. This weekly sheet (or oftener if necessary) should serve many purposes for our group life and it is up to all us to make it a success. A box will be placed on the U.L.'s desk in which you should place contributions to the news sheet. Let's make this a unit project. The offer still stands for the price of a round trip ticket to Providence to the unit member who can offer a better name for this sheet than the above temporary one. We already have one contestant with a really good offering. Contest should close the latter part of next week.

EXETER BOYS CLUB The club has been in operation for almost two weeks now and some evaluation can be made, which would be that it is certainly a success in most of the areas that it was thought that it might be helpful. The men in the Howe Bldg., in regard to discipline and patient morale, can attest to this. All those who are now participating in sponsoring groups certainly have done a good job and are to be commended for their excellent cooperative spirit. As time goes on and new activities are added to your groups there will be considerably more attraction to spending time there than there is even now. Dr. Goldstein is particularly thrilled with the results thus far, and our P.R. have gone up by leaps and bounds.

65 PLUS 5 EQUALS 20! As all of you probably know by now our five man addition has now been officially approved. When they all will be on the grounds is a matter of conjecture. It is hoped that we will get three wives with the addition. There will more than likely be some job shakeups when the men get here; to what extent and who is also a matter of conjecture at present. Well, we are growing!

RELIGIOUS LIFE The Religious Life Committee hopes that all of us are getting a great deal of benefit from the meetings centered on the Sunday School lessons. A greater degree of participation would be most helpful and towards this end a complete study of the lesson should be made before the meeting. This should be done also out of courtesy to the leader, especially in the case of Ref. Friend. Moon will lead the meeting this Sunday, Rev. Friend the next, and following that other leaders will be announced in plenty of time.

If any more of the group are interested in obtaining one of the Bible handbooks let the U.L. know and he will order all of them together.

According to present plans Bro. Abram Lanais of Souderton, Pa. will be with us the evening of Nov. 9, Thursday. Please keep this date in mind.

CONSCRIPTION The issue of peacetime conscription is now staring the nation directly in the face, and from all indications the days following the election should see a concerted drive in Congress to push this dangerous measure through. To us who have rejected war and all it entails as the complete antithesis of God's way for men this is certainly a momentous issue. The MCC is making some concrete efforts to get this problem before Nonconformist constituency and CPS men. What are you doing and thinking about this issue???
