

Feb. 1, 1945.

I came to Woodbine, not because I wanted a change, but to be of more useful service to my fellow men, and I feel that I have been well rewarded. The work here is challenging. We help those who are less fortunate to enjoy life and to use the capacities they have to be useful. The work is pleasant and I find it very interesting. Besides living conditions ~~are~~ are excellent and public relations very good.
